

Policy: Electric Vehicle Charging Stations
Effective : 10.2022
Department: Human Resources

## **ELECTRIC VEHICLE CHARGING STATIONS**

Electric vehicle charging stations are provided to staff and players at no cost. In order to insure the stations are available for our players and fellow staff members the following guidelines are to be followed:

- Staff members may only charge their electric vehicles in designated staff charging areas.
  - The lot west of the helipad
  - Backstage parking lot between the Gaming Commission and Warehouse
  - First floor of the parking garage; however, players have first priority in using these.
  - The lots on the second and third floor of the parking garage are only available for players to use.
- Staff members must keep track of their electric vehicle while it is charging.
- Once the electrical vehicle is “topped off” the staff member must clear the vehicle from the charging station. This ensures that the stations are available for our players and fellow staff members.
